

CONFIDENTIAL CARMEL STUDENT VACCINATION DATA – COVID 19

Attendance at school does not require that students are vaccinated against COVID-19. We respect the personal views and individual decisions of parents and guardians regarding their children's health, whilst complying with all government directives.

Collecting data on students' vaccination status will enable Carmel staff to plan ahead more effectively for excursions, events and should a COVID-19 outbreak occur at the School.

Please submit the information relating to your child/children who are aged 5 and over by Friday 4 February. Prompt attention to this request is appreciated, so we can focus on our core business of educating children.
